

Driver's Licenses

Obtaining a Replacement Driver's License or State Identification Card - Department of Revenue/Division of Motor Vehicles

The ACP authorization card does not verify identity, residence or legal presence. The ACP authorization card only verifies certification as an ACP participant.

New ACP participants should replace their driver's license or state identification card as soon as they receive their ACP authorization card in the mail. The replacement license or identification card should reflect their new substitute address. This service is not free. Please be aware that the Division of Motor Vehicles must charge the usual replacement fee.

In order to obtain a replacement license or identification card, ACP participants will need to bring their current Colorado driver's license or identification card as well as their ACP authorization card. Participants who have an out-of-state driver's license or identification card will need to provide whatever information is required to obtain an original Colorado license or identification card in addition to the ACP authorization card. **Bringing too much information is always better than not bringing enough.**

Participants must actually **replace** their driver's license or identification card. Completing a "Change of Address" card will not change a previous address to an ACP substitute address and it will not place ACP security on a participant's records.

Registering to Vote at the Department of Motor Vehicles

By law, driver's licensing clerks must ask everyone if they would like to register to vote. They will expect ACP participants to decline. **ACP participants should not register to vote at a driver's licensing office.** The ACP has a separate voter registration process. Participants should contact the ACP about the ACP voter registration process.

Division of Motor Vehicles Website Information

Please visit www.colorado.gov/revenue/dmv for specific information about office locations and licensing requirements.

Motor Vehicle Titles and Registrations

ACP participants should also change vehicle title and registration records to reflect the substitute address. For taxation purposes when titling and registering a vehicle, the program participant will present their ACP card. Their actual address will be used as the legal address. The program participant's record will be marked as "confidential" and the actual address will be overridden with the ACP address upon completion of the transaction. It is the responsibility of the ACP cardholder to inform the county motor vehicle office that they are participating in the ACP program.
